

## FIELD SOP

# Midland Representative Soil Investigation Sample Nomenclature Summary

---

## Purpose

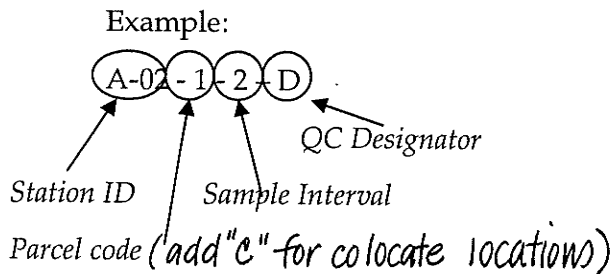

Describe the sample nomenclature that will be used during the fall 2006 Midland Representative Soil field investigation.

## Procedures / Guidelines

Each soil, water, and quality control sample generated during the Midland Representative Soil investigation will be assigned a sample identifier using these instructions.

## Soil Sample Identifiers

Sample identifiers (IDs) are composed of the Station ID, the identifier for the Parcel ID, sample interval, and QC designator.

The Station ID is a shortened version of the station ID shown in Table 2-1 in the SAP. It was shortened by eliminating the first (redundant) zero.

The Parcel code is a one or two digit number that represents the 9 to 14-digit parcel ID as shown in Table 2-1 of the SAP. These parcel IDs were listed numerically and then assigned sequential numbers. The associated parcel ID and parcel code are shown in the attached Sample Prefix table. This number will have a "C" suffix at co-locate locations.

The Sample Interval will either be 1 for the 0 to 1-inch interval or 2 for the 1 to 6-inch interval.

The QC Designator will be as follows:

- D for a duplicate sample
- S for a MDEQ sample split sample
- M for a MS/MSD sample

### **Equipment Blank Identifiers**

One equipment blank will be taken each day when soil sampling occurs during the field investigation, and the equipment blank will have the analytical suite of the soil that was sampled on that day. The equipment blank sample ID will consist of the date and an "EB" prefix.

Example: EB-10-30-2006

### **Trip Blank Identifiers**

Trip blanks will be included in any cooler that contains a soil or water VOC sample. There are separate trip blanks for soil and water samples. Water samples will use laboratory-supplied HPLC water in 40 ml vials. Soil sample trip blanks will use laboratory-supplied methanol vials used for the soil sampling. One water trip blank will be placed in each cooler that contains a water sample, and one methanol trip blank will be included in each sample that contains a soil sample. The trip blank sample IDs will include the trip blank type (water or soil) and number, and the date for the samples the trip blank is associated with.

Example 1: TB-S2-10-30-06 for the second soil trip blank for samples collected on October 30, 2006

Example 2: TB-W4-10-30-06 for the fourth water trip blank for samples collected on October 30, 2006

### **Sample Naming Example**

At each location the following data or information will be collected:

- Station
- Parcel ID and parcel code
- Sample QC
- Dates and time for each sample

Here is a summary of the data that might be collected at a specific sampling station:

Note that separate chains will be needed for D&F+PCOI and soil parameters (also known as bioavailability) since we're sending the bio samples to the lab ourselves. D&F and PCOIs will be given to a third party for blinding.

A-01 (the station ID) parcel 14-21-20-210 and parcel code 1 was sampled for dioxin/furan (D&F), potential constituents of interest (PCOI) and soil parameters. We collected the standard sample, duplicate, and MDEQ split for each of the 0 to 1 inch and 1 to 6 inch intervals. We also did a co-locate on the same parcel. All samples were taken on 10/25/2006, 1435 for the 0-1" standard sample, 1443 for the dup, 1449 for the MDEQ split; 1453 for 1-6" std, 1457 for the dup, and 1510 for the split; and 1525 for the 0-1" and 1527 for the 1-6" co-locate.

The sample IDs, dates, and times will be as follows:

- A-05-1-1 @1435 for D&F, PCOI and Soil Parameters (0-1" sample)
- A-05-1-1-D @1443 for D&F, PCOI and Soil Parameters (0-1" sample)

A-05-1-1-S @1449 for D&F, PCOI and Soil Parameters (0-1" sample)

A-05-1-2 @ 1453 for D&F and PCOI (1-6" sample)

A-05-1-2-D @ 1457 for D&F and PCOI (1-6" sample)

A-05-1-2-S @ 1510 for D&F and PCOI (1-6" sample)

A-05-1C-1 @1525 for D&F, PCOI and Soil Parameters (0-1" sample)

A-05-1C-2 @ 1527 for D&F and PCOI (1-6" sample)

*Note – soil parameters are not taken on the 1-6" interval*

Since we collected PCOIs, which include VOCs, we will also have a trip blank. This will be a lab-supplied methanol VOC soil sampling kit. The trip blank ID will be:

TB-S1-10-25-2006 with a date and time of 10/25/06 @ 1625

An equipment blank was collected for soil sample. This sample ID will be:

EB-10-25-2006 with a date and time of 10/25/06 @ 1645

**Sample Prefix Table**  
 Midland Representative Soil Investigation  
 Fall 2006

Sample Station	Parcel id	LocationID	Sample Prefix
A-001	14-21-20-210	A-01-14-21-20-210-1	A-01-1
A-002	14-21-20-186	A-02-14-21-20-186-1	A-02-1
A-002	14-21-20-305	A-02-14-21-20-305-2	A-02-2
A-003	14-21-10-346	A-03-14-21-10-346-1	A-03-1
A-003	14-21-10-350	A-03-14-21-10-350-2	A-03-2
A-003	14-21-10-398	A-03-14-21-10-398-3	A-03-3
